

Question 1: Die Roll vs. Posterior of Loaded Die

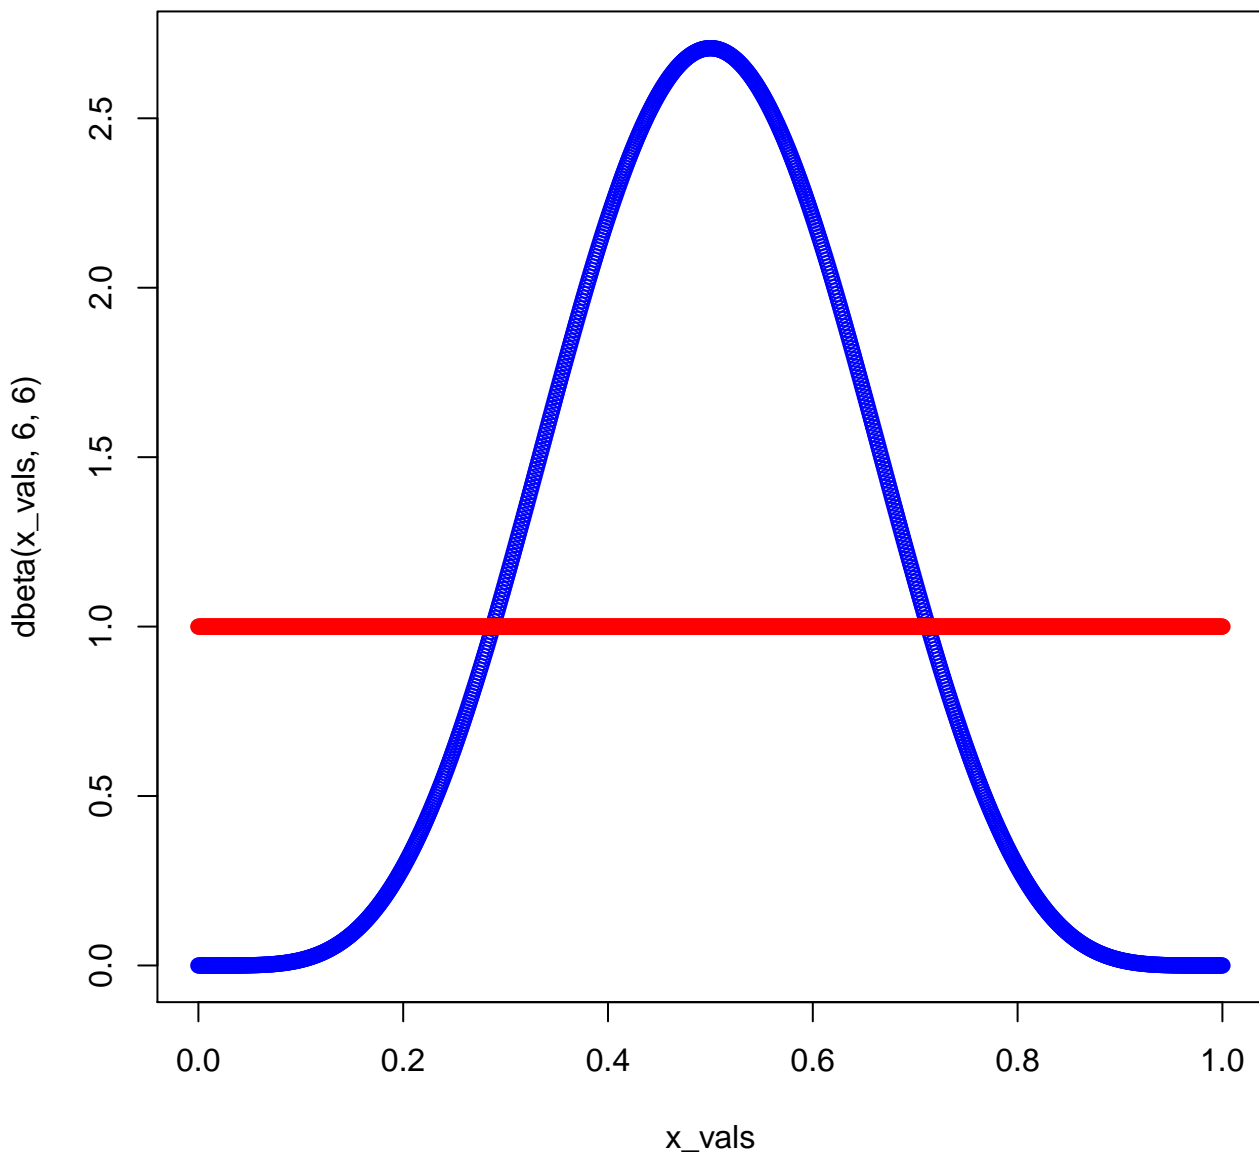

Question 2: Estimated Power vs. Number of Rolls

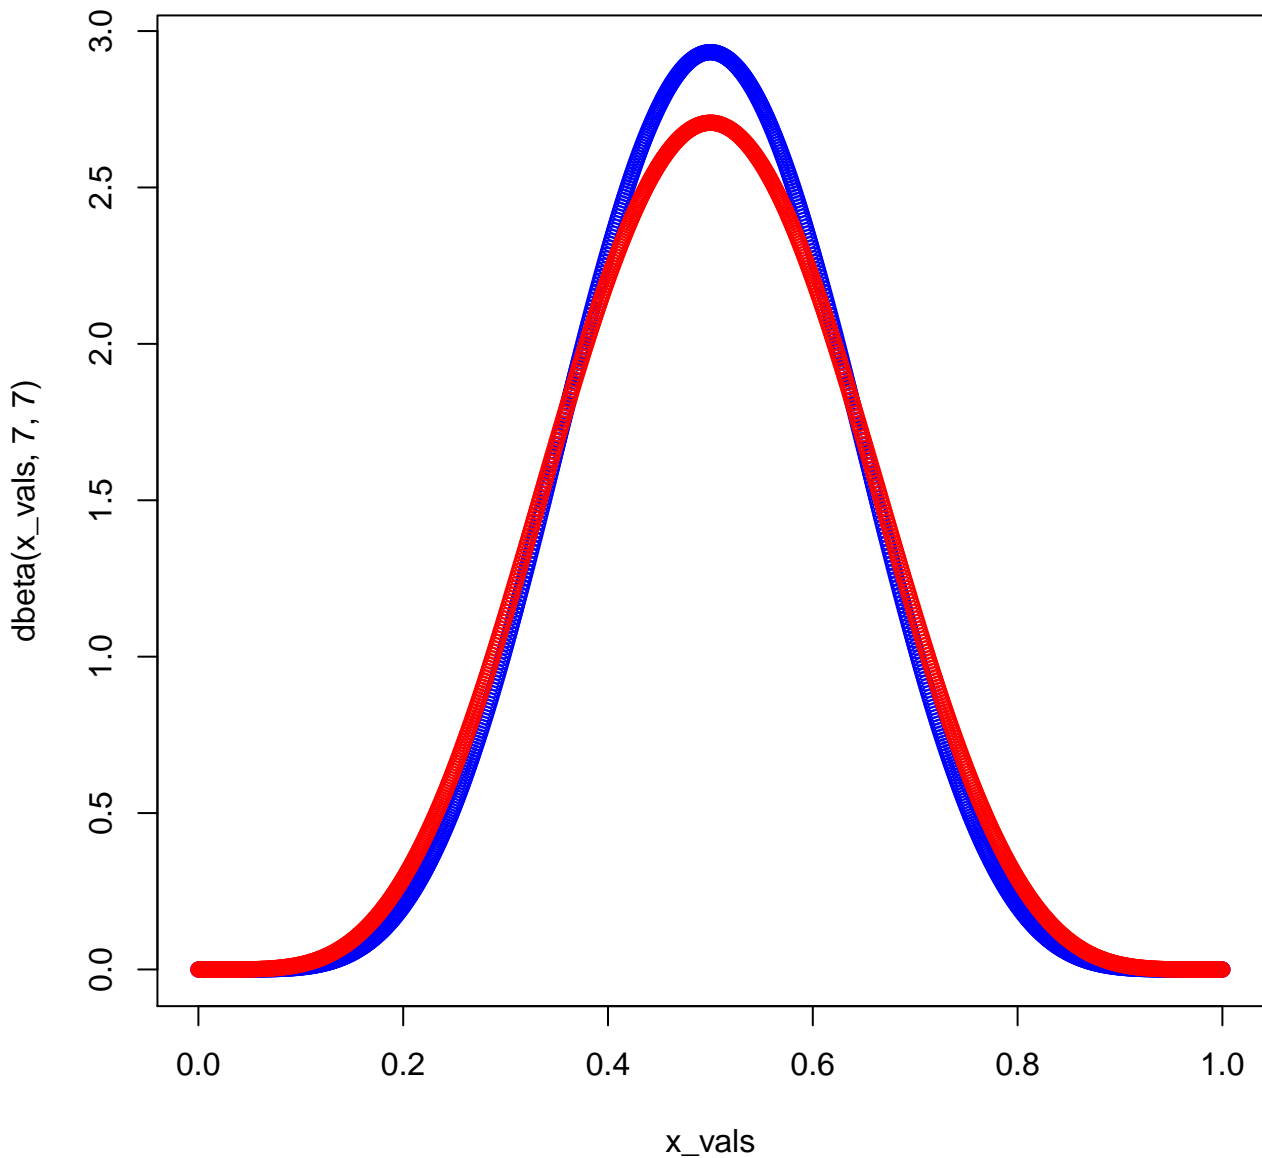

Question 2: Average Posterior Probability vs. Number of Rolls

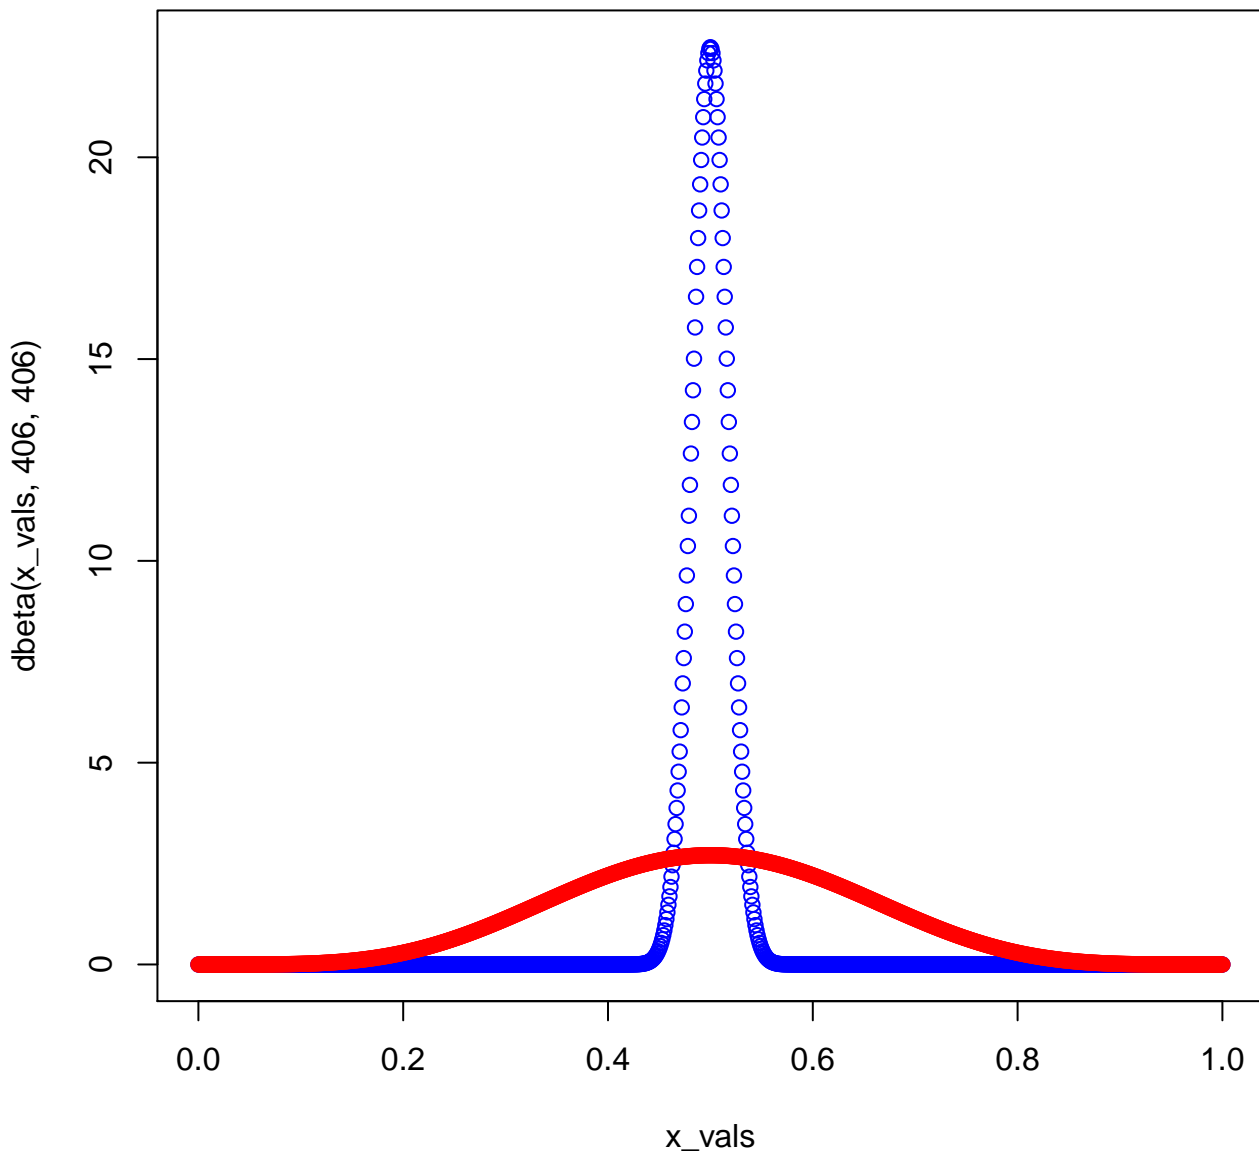

Question 3A: Prior probability distributions

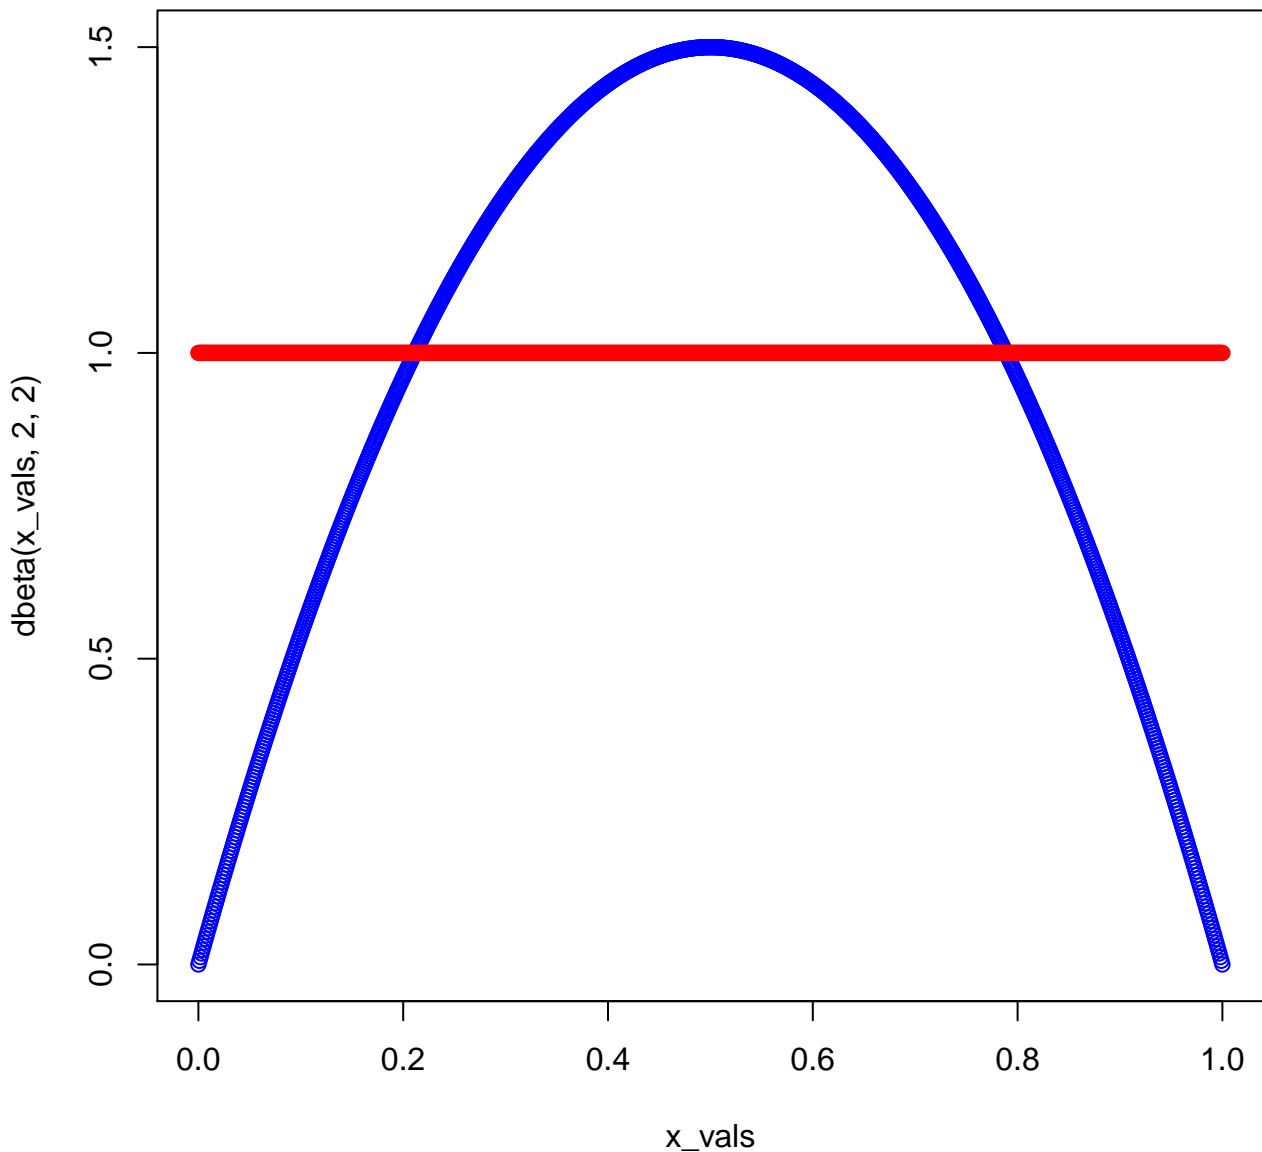

**Question 3B: Prior probability distributions vs. Posterior probability distributions
(10 → 12 Flips)**

**Question 3B: Prior probability distributions vs. Posterior probability distributions
(10 → 800 Flips)**

**Question 3B: Prior probability distributions vs. Posterior probability distributions
(2 → 4 Flips)**

**Question 3B: Prior probability distributions vs. Posterior probability distributions
(2 → 802 Flips)**
